DETAILED ACTION

This communication is in response to the amendment filed on November 24,
 claim 1 is pending. The rejections cited are as stated below:

Response to Applicant's Amendment

2. The Examiner acknowledges Applicant's amendment to the claim, which over comes the 35 U.S.C. 101 rejection with respect to the preamble. However, the amendment still does not over come the 35 U.S.C. 101 rejection directed to a non-statutory subject matter with respect to the body of the claim.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claim 1 is rejected under 35 U.S.C. § 101 because; the claimed invention is directed to a non-statutory subject matter. Specifically the method claim as presented claims a technological basis only in one of the steps of body of the claim. The preamble and the disclosure clearly indicate that all of the steps are performed using a computer, by claiming only one step using a computer, the claim may be interpreted in an alternative as involving no more than a manipulation of an abstract idea and therefore non-statutory

under 35 U.S.C. 101. In contrast, a method claim that includes in the body of the claim at least one structural / functional interrelationship which can only be computer implemented is considered to have a technological basis [See Ex parte Bowman, 61 USPQ2d 1669, 1671 (Bd. Pat. App. & Inter. 2001) - used only for content and reasoning since not precedential].

In order to over come the 101 rejection above, the use of the computer in the body of the claim should include at least one structural / functional interrelationship which can only be computer implemented for all the claimed limitations not just only for one.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hani Kazimi whose telephone number is (703) 305-1061. The examiner can normally be reached Monday-Friday from 8:30 AM to 5:00 PM.
